

Assembly Instructions

Poppyforge Three-Tier Straight Stand

Assembly

1. Lie one side-frame on the floor and connect the Scrolled back panel to it.
2. Repeat for the other side panel and stand the unit up.
3. Attach the top, middle and bottom shelves, using the nuts and bolts provided. Hand tighten only.
4. Once loosely assembled, tighten the nuts using an appropriate spanner or adjustable spanner.

Contents

- 2x Sides
- 1x Scrolled Back Panel
- 3x Shelves
- 16x Nuts & Bolts

Aftercare

For the ready-to-rust-finish, no maintenance is needed as the product will naturally mellow.

For black finishes, every effort is made to ensure complete coverage of the powder coating. Small blisters may appear over time. In this case scrape away any loose material and spot paint with hammerite or similar.
